

Appendix Two

Meritorious Service Award Recipients

To earn the Meritorious Service Award an employee must have established a record of significant performance of official duties. The Meritorious Service Award is a die struck silver table medal approximately 1.65 inches (40mm) in diameter and 0.116 inches (3mm) thick. The silver medal features the Interior seal, a buffalo, with the words **Department of the Interior Meritorious Service**, on the obverse. The reverse features a relief of the Interior building and wording **Award for/Meritorious Service/to**. Below this is engraved in two lines the recipient's name and award date. The medal is presented in a fitted case.

Accompanying the medal are a silver lapel pin depicting the medal's obverse, a silver embossed certificate signed by the Secretary of the Interior, and a letter-sized citation outlining the individual's achievements. The Meritorious Service Award has been awarded 8152 times with 19 awarded for valor prior to 1957. Records for the Meritorious Service Award are incomplete with nearly all records for the last half of 1966, all of 1967 and most of 1968 missing. As near as can be reasonably determined about 632 records are missing.
